Cephalon Summer Internship 2010

What's the program about?

High school students from across the city of Philadelphia will have the opportunity to create health content targeted to their peers. As health reporters for YouthPhilly.org, you will improve the design of our teen webpage, write articles, interview youth in your community, produce YouTube videos, and use social media websites (example: Facebook) to educate and inform your peers about important health issues.

College staff will work with you to put the power of educating teens on health issues in your hands. You will choose health topics you think are important to teens and deliver the information in your own creative ways.

When does it start and what are the hours?

This is a six week summer internship program, from **June 28, 2010- August 6, 2010**. Students will work four days a week (Monday, Tuesday, Thursday, and Friday) from 10am-4pm (24 hours/week). The stipend is \$10.00/hr.

Who is eligible?

Any Philadelphia area student in the 9th-12th grades is welcome to apply. All students must obtain a work permit from their school and have parent or guardian permission to participate prior to starting the internship.

When is the deadline?
